## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5, 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Weld.

Weld, U.S. Patent No. 5,696,405 discloses a microelectronic package. As shown in Figure 2, the package comprises a chip 18 arranged on a carrier with mold compound 22 covering the chip 18. A cooling tubule 32 is attached to the outer surface of the mold compound.

### ***Allowable Subject Matter***

Claims 2-4 and 7 – 8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

### ***Conclusion***

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Ishida et al., U.S. Patent No. 5,233,225 discloses a resin-encapsulated package. Figure 18 shows a chip 1 arranged on a carrier 2.

Love et al., U.S Patent No. 5514906 discloses an apparatus for cooling semiconductor chips in multi-chip modules.
